Jeremy Richards

JR

I have a BFA in Graphic Design, a full range of design skills from digital to print on all of the standard programs, as well as experience in computer maintenance in both Windows and Macintosh environments. Being a hard worker and a good problem solver are some of my best qualities. I have over 15 years experience in web, 3D, and general graphic design. Contact me if you think I would be an asset to your team.

Thank you for your time, and your consideration.
